Moultonborough's First Annual Clean-Up & Green-Up Day A Big Success

On Saturday May 14th, with over 100 girls, boys, scouts, parents, siblings and townspeople participated in this event caring for their parks in Moultonborough. Lead by Girl Scout Cadette Troop #10896 the very first Clean-Up & Green-Up Day was a big success.

Long Island beach, Lee's Mill Landing and Playground Drive all got an overhaul by the Clean - Up "Worker Bees". Picking up garbage, raking leaves, spreading mulch and planting 30 ground juniper bushes took up much of the day. The day's events included the planting of an American Liberty Elm made possible by a grant from the Liberty Tree Society, sponsored by Elm Research Institute (ERI), of Keene, NH, to the Town of Moultonborough.

The effort was supported by Scott Kinmond, Road Agent/Public Works Director for the Town of Moultonborough. He and his staff found themselves amazed by how fast the work was getting done, and had to rally to find more things for the "Worker Bees" to do. After all the hard work there was ice cream from Dewey's Ice Parlor to finish the day.

"Next year we'll need to add more properties to the Clean up and Green up list" says Lydia Eaton, Troop Leader, who hopes that more townspeople catch on to the idea of an Annual Townwide Clean Up and Green Up Day, held the second Saturday in May.

The Troop would like to say a hearty thank you to each and every volunteer for making the day a great success. The Moultonborough Girl Scouts meet regularly at Moultonborough Academy and Moultonborough Central School with the support of the Moultonborough School System. For further information on this event or joining the Girl Scouts please call Lydia Eaton at 253-7775 or send an email to beeleton@wildblue.net.
